

# ACCOUNTANCY MUST-DO TOPICS (SET 2)

BY THUNDERSTUDY TEAM

## 1. CASH FLOW STATEMENT (INVESTING & FINANCING)

Repeats: 8/8 Years

This is consistently the final 6-mark question in Part B.

**Must-Do Question:** "From the following Balance Sheet of Solar Ltd., calculate Cash Flow from Investing Activities and Financing Activities."

### Key Adjustments to Master:

- **Fixed Assets:** Handling accumulated depreciation and loss/profit on sale of machinery.
- **Interest:** Calculating interest on debentures based on the date of issue (1st April vs 31st March).
- **Proposed Dividend:** Always add back previous year's dividend to Net Profit and subtract as financing outflow.

## 2. DISSOLUTION OF PARTNERSHIP (JOURNAL ENTRIES)

Repeats: 8/8 Years

Focus heavily on 6-mark journal entry questions rather than full realization ledgers.

### Must-Do Scenarios:

1. Realisation expenses paid by firm on behalf of a partner.
2. Creditors accepting furniture in full settlement (Note: No Entry).
3. Unrecorded asset realized or taken over by a partner.

**Repeats in:** Source 2, Source 3, Source 5, Source 7.

### 3. ACCOUNTING FOR DEBENTURES (REDEMPTION TERMS)

Repeats: 7/8 Years

Typically a 3 or 4 mark question located in the mid-section of Part A.

**Must-Do Question:** "Pass Journal Entries: Issued 5,000, 9% Debentures of ₹ 100 each at 5% discount, redeemable at 10% premium."

**The Golden Rule:** Always open "Loss on Issue of Debentures A/c" to cover both the discount and the future redemption premium.

### 4. DEATH OF A PARTNER (PROFIT CALCULATION)

Repeats: 6/8 Years

Often focuses on the share of profit till the date of death.

**Must-Do Question:** "Calculate C's share of profit till the date of death (30th June) based on the previous year's profit ratio and sales till death."

**Formula:**  $(\text{Last Year Profit} / \text{Last Year Sales}) \times \text{Current Sales till Death} \times \text{Deceased Partner's Share}$ .

### 5. BALANCE SHEET ANALYSIS (HEADS & SUB-HEADS)

Repeats: 6/8 Years

A standard 3-mark theory-based classification question.

**Repeated Items to Categorize:**

- **Loose Tools:** Current Assets → Inventories
- **Unpaid Dividend:** Current Liabilities → Other Current Liabilities
- **Capital Reserve:** Shareholders' Funds → Reserves and Surplus

#### SUMMARY TABLE (SET 2)

| Topic               | Frequency  | Weightage |
|---------------------|------------|-----------|
| Cash Flow Statement | 100% (8/8) | 6 Marks   |

|                            |            |           |
|----------------------------|------------|-----------|
| Dissolution (Entries)      | 100% (8/8) | 6 Marks   |
| Debentures (Terms)         | 87% (7/8)  | 3-4 Marks |
| Death (Profit Calculation) | 75% (6/8)  | 3-4 Marks |
| BS Heads & Sub-heads       | 75% (6/8)  | 3 Marks   |

**THUNDERSTUDY TIP:** Mastering Set 1 (Shares) and Set 2 (Cash Flow + Dissolution) allows you to secure **30% to 40%** of the paper's total marks with just a handful of focused topics. Complete these first for a guaranteed high score.
