

GEOGRAPHY HIGH-PROBABILITY 50 MCQS

Extracted from Multi-Set Board Paper Analysis | BE A TOPPER Series

INDUSTRY & ECONOMIC ACTIVITIES

1. Industries based on bulky raw materials are located near:

- A. Markets B. Ports C. Raw material sources D. Urban areas

✓ Answer: C

2. Which sector converts raw material into finished goods?

- A. Primary B. Secondary C. Tertiary D. Quaternary

✓ Answer: B

3. Retail trade mainly deals with:

- A. Export goods B. Manufacturing C. Selling goods to consumers D. Raw material extraction

✓ Answer: C

4. Tertiary activities mainly involve:

- A. Mining B. Manufacturing C. Services D. Agriculture

✓ Answer: C

5. Which is an example of tertiary activity?

- A. Farming B. Teaching C. Mining D. Fishing

✓ Answer: B

TRANSPORT & TRADE

6. International trade is beneficial because it:

- A. Increases cost B. Provides required goods C. Stops imports D. Reduces development

✓ Answer: B

7. Ports specialising in bulk cargo are called:

- A. Inland Ports B. Industrial Ports C. Comprehensive Ports D. Out Ports

✓ **Answer: B**

8. Automatic vending machines are examples of:

- A. Wholesale trade B. Rural trade C. Retail trade D. Industrial trade

✓ **Answer: C**

9. Development of transport improves trade by:

- A. Slowing movement B. Faster movement of goods C. Reducing production
D. Increasing tariffs

✓ **Answer: B**

10. Free trade means:

- A. Increasing tariffs B. Removing trade barriers C. Banning imports D. Limiting export

✓ **Answer: B**

AGRICULTURE & RESOURCES

11. Gathering is mostly practiced by:

- A. Industrial societies B. Primitive societies C. Urban population D. Service sector workers

✓ **Answer: B**

12. Australian Downs are famous for:

- A. Plantation agriculture B. Mixed farming C. Extensive commercial grain farming
D. Cooperative farming

✓ **Answer: C**

13. Bauxite production is highest in:

- A. Odisha B. Punjab C. Haryana D. Delhi

✓ **Answer: A**

14. Good quality minerals are:

- A. More abundant B. Equal in quantity C. Less abundant D. Unlimited

✓ **Answer: C**

15. Pressure on agricultural land increases due to:

- A. Soil erosion B. Multiple cropping C. Fertility improvement D. Irrigation

✓ **Answer: A**

WATER & ENVIRONMENT

16. Main polluter of Yamuna in Delhi:

- A. Flood water B. Domestic waste C. Fertilisers D. Pesticides

✓ **Answer: B**

17. Water borne diseases include:

- A. Asthma B. Blood pressure C. Hepatitis and diarrhoea D. Migraine

✓ **Answer: C**

18. Practical step to reduce air pollution in cities:

- A. Private vehicles B. Metro rail and CNG buses C. Industrial growth D. Diesel engines

✓ **Answer: B**

19. Namami Gange Programme aims to:

- A. Canal building B. Cleaning Ganga river C. Dam construction D. Irrigation expansion

✓ **Answer: B**

20. Water quality refers to:

- A. Water quantity B. Water usability for purposes C. Water storage D. Rainfall amount

✓ **Answer: B**

POPULATION & MIGRATION

21. Population distribution is influenced by:

- A. Physical factors B. Socio-economic factors C. Historical factors D. All of these

✓ Answer: D

22. Push factors of migration include:

- A. Job opportunities B. Unemployment C. Better education D. High wages

✓ Answer: B

23. Pull factor of migration:

- A. Poverty B. Lack of facilities C. Employment opportunities D. Disaster

✓ Answer: C

24. Migration from rural to urban areas mainly occurs due to:

- A. Better transport B. Employment and facilities C. Forest resources D. Agriculture

✓ Answer: B

25. HDI measures:

- A. Industrial output B. Human development level C. Agricultural productivity
D. Population density

✓ Answer: B

HUMAN DEVELOPMENT & SOCIETY

26. Welfare approach focuses on:

- A. Income B. Providing basic facilities C. Industrial growth D. Trade

✓ Answer: B

27. Capability approach emphasizes:

- A. Income only B. Human choices and opportunities C. Trade growth
D. Industrial development

✓ Answer: B

28. Empowerment means:

- A. Equal opportunity B. Political participation C. Skill development D. All of these

✓ **Answer: D**

29. Sustainability ensures:

- A. Present development only B. Future generation opportunities C. Industrial growth
D. Trade liberalisation

✓ **Answer: B**

30. Equity means:

- A. Equal opportunity access B. Equal income C. Equal land D. Equal population

✓ **Answer: A**

TRANSPORT & INFRASTRUCTURE

31. Chandigarh–Manali road is constructed by:

- A. BRO B. NHAI C. CPWD D. State PWD

✓ **Answer: A**

32. Railways are economically important because they:

- A. Reduce tourism B. Facilitate trade and connectivity C. Increase pollution D. Reduce mobility

✓ **Answer: B**

33. Inland waterways are mainly used for:

- A. Road transport B. Water transport C. Air travel D. Rail transport

✓ **Answer: B**

NATURAL RESOURCES & MINING

34. Open-cast mining is:

- A. Underground mining B. Surface mining C. Water mining D. Tunnel mining

✓ **Answer: B**

35. Shaft mining is:

- A. Surface mining B. Underground vertical mining C. River mining D. Desert mining

✓ **Answer: B**

36. Developed countries avoid mining because:

- A. No minerals B. Environmental hazards C. Lack of technology D. Lack of workers

✓ **Answer: B**

GEOGRAPHY CONCEPTS

37. Human geography studies:

- A. Climate only B. Relationship between humans and environment C. Rocks and minerals
D. Weather patterns

✓ **Answer: B**

38. Naturalisation of humans means:

- A. Humans adapting to environment B. Environment adapting to humans C. Urbanisation
D. Industrialisation

✓ **Answer: A**

39. Uneven industrial distribution occurs due to:

- A. Raw materials B. Labour C. Markets D. All factors

✓ **Answer: D**

40. Primary activities include:

- A. Manufacturing B. Farming and fishing C. Transport D. Banking

✓ **Answer: B**

URBANISATION & DEVELOPMENT

41. Urban population growth results from:

- A. Migration B. Industrialisation C. Job opportunities D. All of these

✓ **Answer: D**

42. Growth refers to:

- A. Quantitative change B. Qualitative change C. Social change D. Political change

✓ **Answer: A**

43. Development refers to:

- A. Quantity only B. Quality improvement C. Population increase D. Urban growth

✓ **Answer: B**

ENVIRONMENT & LAND DEGRADATION

44. Soil salinisation causes:

- A. Fertility increase B. Land degradation C. Crop increase D. Water increase

✓ **Answer: B**

45. Waterlogging results in:

- A. Increased yield B. Reduced soil productivity C. Industrial growth D. Urbanisation

✓ **Answer: B**

MISCELLANEOUS HIGH-PROBABILITY

46. Denmark is famous for:

- A. Industrial mining B. Gathering activities C. Dairy farming D. Fishing

✓ **Answer: C**

47. Commercial livestock rearing is common in:

- A. Tropical forests B. Temperate grasslands C. Deserts D. Mountains

✓ **Answer: B**

48. Nomadic herding is practiced in:

- A. Urban regions B. Harsh climatic regions C. River valleys D. Coastal plains

✓ **Answer: B**

49. Quaternary sector includes:

- A. Agriculture B. Knowledge based services C. Manufacturing D. Mining

✓ **Answer: B**

50. Service sector employment dominates in:

- A. Developing economies B. Developed economies C. Agricultural economies
D. Tribal economies

✓ **Answer: B**
