

Physical Education: Self-Assessment Guide

COMPLETE QUESTION BANK FOR CLASS XII BOARD PREPARATION

Unit 1: Management of Sporting Events

- Q.** What is a League Tournament? [1]

- Q.** In a Knockout Tournament, how is a team eliminated after a loss? [1]

- Q.** What is the definition of a Round Robin Tournament and what are its two types? [1]

- Q.** How are fixtures (draws) prepared for N teams (e.g., 11, 13, 19, 21 teams)? [1]

- Q.** What is the difference between Intramural and Extramural activities? [1]

- Q.** What are Specific Sports Programmes? [1]

- Q.** What are the responsibilities of committees during the Pre, During, and Post-tournament phases? [1]

Unit 2: Children & Women in Sports

- Q. What are the common postural deformities (Flat foot, Knock knee, Bow legs, Round shoulder)? [2]
- Q. What are two corrective exercises for Flat Foot? [2]
- Q. What is the definition of Lordosis (Sway Back)? [2]
- Q. What is the definition of Bulimia? [2]
- Q. What is the definition of Kyphosis (Hunch Back)? [2]
- Q. What are the definitions of Menarche and Menopause? [2]
- Q. What is the definition of Amenorrhea? [2]
- Q. What are the corrective measures for Knock Knee, Round Shoulder, Lordosis, Bow Legs, and Flat Foot? [2]
- Q. What constitutes the Female Athlete Triad (Osteoporosis, Amenorrhea, Eating Disorders)? [2]
- Q. How can Anorexia Nervosa be prevented and managed? [2]
- Q. What are the sociological factors contributing to the low participation of women in sports in India? [2]

Unit 3: Yoga as a Preventive Measure

- Q. Which asanas are used to treat Obesity? [3]
- Q. What is the definition of Diabetes and how is it managed? [3]
- Q. What are the benefits and procedures for Paschimottanasana, Pawanmuktasana, Ardha Matsyendrasana, Matsyasana, Tadasana, Dhanurasana, and Bhujangasana? [3]
- Q. What are the physiological causes of Asthma and which 4 asanas cure it? [3]
- Q. What is the definition of Hypertension (High BP) and what are the benefits of Shitali Pranayama? [3]
- Q. Which asanas (e.g., Ardha Chakrasana) provide relief for Back Pain? [3]
- Q. What are the benefits of Anulom Vilom (Nadi Shodhana)? [3]

Unit 4: Physical Education & Sports for CWSN

- Q. When and where did the Special Olympics start, and what is its mission? [4]
- Q. What is the Paralympics Anthem, IPC Vision, and what are the eligibility criteria? [4]
- Q. How are the Deaflympics organized and what is their definition? [4]
- Q. What are the definitions of Disability and Hypertonia? [4]
- Q. How is inclusion in sports implemented and what strategies make physical activity accessible? [4]
- Q. What is the difference between Medical and Functional classification (divisioning) in sports? [4]

Unit 5: Sports & Nutrition

- Q. What is the definition of a Balanced Diet? [5]
- Q. What are the Macro and Micro nutrients (Vitamins, Minerals, Carbohydrates, Fats, Proteins)? [5]
- Q. What are the non-nutritive components of diet (Fibre, Water, Compounds)? [5]
- Q. What is the definition of BMI (Body Mass Index) and how is it calculated numerically? [5]
- Q. What is the difference between Fat-soluble vitamins (A, D, E, K) and Water-soluble vitamins (B, C)? [5]
- Q. What are the common dietary pitfalls (starving, skipping meals, food myths)? [5]
- Q. What is the definition of Food Intolerance? [5]

Unit 6: Test & Measurement in Sports

- Q. Describe the Sai Khelo Fitness Test for ages 5–8 and 9–18. [6]
- Q. What is the procedure for the Harvard Step Test and how is cardiovascular fitness calculated? [6]
- Q. What are the items in the Rikli & Jones Senior Citizen Test (Chair Stand, Arm Curl, Back Scratch, 8 Foot Up and Go)? [6]
- Q. Describe the specific tests: 600m Run/Walk, Plate Tapping, Sit and Reach, and Push-ups/Modified Push-ups. [6]

Unit 7: Physiology & Injuries in Sports

- Q. What physiological factors determine Strength, Speed, Flexibility, and Endurance? [7]
- Q. Define the cardiovascular terms: Oxygen Uptake, Stroke Volume, and Cardiac Output. [7]
- Q. What are Soft Tissue Injuries (Abrasion, Contusion, Laceration, Incision, Strain, Sprain)? [7]
- Q. What are the different types of fractures (Green Stick, Transverse, Oblique, Comminuted)? [7]
- Q. What are the short-term and long-term effects of exercise on the Muscular and Cardio-respiratory systems? [7]

Unit 8: Biomechanics & Sports

- Q. What are Newton's Laws of Motion (Inertia, Acceleration, Reaction) and what are their applications in sports? [8]
- Q. What is the difference between Static and Dynamic Equilibrium? [8]
- Q. Describe 1st, 2nd, and 3rd Class Levers with examples from sports. [8]
- Q. Which factors affect the trajectory of a projectile (Angle, Speed, Gravity, Air resistance)? [8]
- Q. What are the types of friction (Static, Sliding, Rolling) and what are their advantages in sports? [8]

Unit 9: Psychology & Sports

- Q. What is Jung's Classification of personality (Introvert, Extrovert, Ambivert)? [9]
- Q. What is the Big Five Theory (OCEAN: Openness, Conscientiousness, Extroversion, Agreeableness, Neuroticism)? [9]
- Q. What are the different types of Aggression (Hostile, Instrumental, and Assertive)? [9]
- Q. Describe the psychological attributes: Self-esteem, Mental Imagery, Goal Setting, and Self-talk. [9]

Unit 10: Training in Sports

- Q. Define Maximum Strength, Explosive Strength, and Strength Endurance. [10]

- Q. What are the training methods for strength (Isometric, Isotonic, Isokinetic)? [10]

- Q. What are the endurance training methods (Continuous, Interval, and Fartlek/Speed Play)? [10]

- Q. What are the speed training methods (Acceleration runs and Pace runs)? [10]

- Q. What is the difference between Active and Passive flexibility? [10]

- Q. What is the procedure for Circuit Training with 10–12 stations? [10]

- Q. What are Micro, Meso, and Macro training cycles? [10]
