

1. Guide Books

T.S. Grewal – For detailed explanations and step-by-step solutions to practical problems.
D.K. Goel – Best as a secondary guide for extra questions and cross-reference explanations.

2. Question Banks

Physics Wallah (PW) – Concise and well-aligned with CBSE paper patterns.
NCERT Book – Do all questions, including illustrations and back exercises.

3. Previous Year Questions (PYQs) – Last 5 Years

Focus on commonly repeated patterns and tricky adjustments in questions.
Practice by chapter first, then as full-length papers.

4. CBSE Sample Papers

Official CBSE Sample Paper + Marking Scheme available at cbseacademic.nic.in.
Solve with a timer and then compare with the marking scheme for improvement.

5. Sample Paper from One Institute

Choose either:

PW – More structured and analysis-based.

Educart – Useful for quick revision + model answers.

Expert Study Tips & Strategy

Preparation Tips

1. Start with NCERT + TS Grewal: Build your base first before jumping to higher-level problems.
2. Understand, Don't Cram: Focus on why an entry is made, not just how.
3. Use a Register for Journal Entries: Practice all journal entries by hand – it boosts accuracy.
4. Create Chapter-wise Formula Sheets: Especially for Ratio Analysis, Cash Flow, and Accounting Ratios.
5. Keep a Doubt Book: Write every confusing adjustment or tricky point and review regularly.

Time Management Tips

6. Divide Your Week:

3 days: New chapters + concept building

2 days: Revision & question bank

1 day: Sample paper practice

1 day: Rest/light revision

7. Use the Pomodoro Technique: 25 minutes focused study + 5 min break to avoid fatigue.

Revision Tips

8. Revise Adjustments Separately: Focus on bad debts, goodwill, revaluation, hidden adjustments.
9. Practice Ledger + Balance Sheet Formatting: Marks are awarded for correct formats.
10. Do Mistake Analysis: After every test/sample paper, write down your errors to avoid repeating them.

Exam Day Tips

11. First 15 Minutes = Reading Time: Circle the adjustments before writing.
12. Start with Familiar Questions: Builds confidence and saves time.
13. Avoid Overwriting and Cutting: Neatness matters in Accountancy.
14. Use Pencil for Drawing Formats/Tables (if allowed) for cleaner presentation.

✗ Not Recommended Books

Avoid these books due to outdated content, irrelevant questions, or poor CBSE alignment:

By Commerce Se Hoga

Book Name	Reason
Oswaal Books	Overloaded with unnecessary repetition, confusing formats
Together With	Lacks depth, outdated questions, inaccurate answers in some editions
Arihant All in One	Too generalised, not focused for scoring high in Accounts
Xam Idea	Poor coverage of advanced topics like Cash Flow and Ratio Analysis
Full Marks	Not up to board level in terms of question variety or clarity
Golden Guide	Traditional book, not updated with latest CBSE syllabus or paper pattern
MTG Rapid Revision	Too rushed, not suitable for deep learning needed in practical subjects like Accounts

By Commerce Se Hoga

what I Do To Get 100 Mark's In Class 12 Accounts

1. NCERT is My Bible

I read each chapter from NCERT at least 3 times.

I marked important journal entries, formats, and adjustments.

I practiced every question, including in-text and example problems.

2. TS Grewal – My Main Practice Book

After reading NCERT, I solved all questions from T.S. Grewal, especially:

Partnership accounts

Company accounts

Cash flow statements

I focused on understanding entries, not memorizing.

3. Maintained a "Mistake Book"

I created a small notebook to write down:

Wrong answers I gave

Tricky adjustments I missed

Misunderstood formats

Before every test, I revised this – helped me never repeat mistakes.

By Commerce Se Hoga

4. Created a Smart Study Schedule

Monday to Friday: One hour of Accountancy per day (one chapter/week)

Saturday: PYQs and Sample Paper

Sunday: Doubt clearance + revision of weak topics

5. Focused on Concepts Over Cramming

I understood the reason behind every entry.

e.g., Why goodwill is treated in a specific way

Why debentures affect cash flow

By Commerce Se Hoga
By Commerce Se Hoga
By Commerce Se Hoga

This helped me attempt tricky HOTS (High Order Thinking Skills) questions confidently.

6. Gave Weekly Tests at Home

I downloaded sample papers (CBSE, PW, Educart)

Gave one full paper every weekend, timed for 3 hours.

Evaluated my own paper with marking scheme.

7. Worked Extra on Presentation

Used proper headings, columns, and spacing

Avoided overwriting

Drew tables neatly

Highlighted totals or important figures with pencil

Examiner can't deduct marks if your paper looks clean and organized

8. Exam Day Strategy

First 15 min reading: Marked adjustments and instructions

Started with 6-mark questions I was confident in

Left time at the end for checking totals and spelling in theory answers

! 9. Most Important Chapters to Master

(These carry the highest weightage)

By Commerce Se Hoga
By Commerce Se Hoga
By Commerce Se Hoga

Chapter 🎯 Why Important

Partnership – Reconstitution Adjustment-heavy, scoring, conceptual

Accounting for Share Capital 6-marker favorite

Cash Flow Statement Format-based, formula-heavy

Accounting Ratios Concept + formula clarity is a must

Issue of Debentures Often part of tricky 6-mark questions

10. Don't Panic, Be Consistent

I didn't study 10 hours a day. I studied smartly for 1–2 focused hours daily.

Revision > Repetition.

Trust your hard work. Be confident. You don't need to study every book – just the right books the right way.
